

E-SPACE YARNS

SPACE DYED YARNS

E-SPACE YARNS COLLECTION

A range of yarns in which multiple colors are applied along the length of each strand of yarn which may or may not repeat after a fixed interval with at least two different colors on one skein. While a typical skein of yarn is the same color throughout, a skein of space dyed yarn is two or more different colors. Space dyeing yarn involves the use of mordant to help permanently fix the dye to the yarn after the space dyeing process. Space dyed yarn can be dyed in either coordinating or contrasting shades. Unlimited designs, 3D effects can be availed. These yarns are Ideal for weaving & knitting, casual wear, lounge wear, active wear garments application.
